About Me

2nd-year BSIT student learning software development by building projects in C++, C#, Java, and web technologies. Detail-oriented and reliable, with freelance experience in editing and data entry. Looking for opportunities to keep learning and grow toward becoming a Software Engineer.

Education

Bachelor of Science in Information Technology (BSIT)

St. John Paul II College of Davao
2025 – Present | Currently a 2nd-year student

Projects

Enrollment System

C# web application, academic project (group and individual work)

- Student side: edit the application, change the profile photo, save changes, and view the student portal.
- Faculty side: view faculty schedules, and add, edit, and update records.

Java Code Journal

Java, object-oriented programming

- 10 programs practicing inheritance and method overriding (polymorphism), with classes, constructors, and packages.

Coding Practice Folders

C++, HTML and CSS, Java, JavaScript

- Practice work organized by language, browsable in my online portfolio.

Experience

Freelance Document Editor

2023 – 2024

- Edited academic and non-academic documents for grammar, spelling, clarity, and coherence.
- Proofread essays, reports, and written outputs to ensure error-free content.
- Improved sentence structure and overall readability of documents.
- Followed client instructions and submitted revisions on time.
- Ensured confidentiality of all client materials.

Freelance Typing / Data Entry Specialist

2024 – 2025

- Typed handwritten and digital documents with speed and accuracy.
- Encoded academic papers, forms, and reports using proper formatting.
- Converted files into editable documents (PDF to Word / Google Docs).
- Organized and formatted documents based on client requirements.
- Met deadlines consistently while maintaining accuracy.

Other Skills

Editing, Typing, Digital Marketing, Creativity, Critical Thinking, Leadership, Management
